User Stories (US)

Project Name: Employee Leave Management System

Prepared By: Krantikumar Marathe

Date: Today's Date

1. Employee (US)

As an employee, I want to apply for leave so I can get approval for my day off.

Acceptance Criteria

1. Start date, end date, and reason are required. Why are you taking leave?

2. The system should show a confirmation message to the employee.

2. Manager (US)

As a manager I want to approve or reject the leave so I can plan teamwork.

Acceptance Criteria

1. Manager Can view full list of requests

2. Approve or reject

3. Approve

4. Reject, employee require Comment

3. HR (US)

As HR, I want to view employee Leave data so I can maintain records

Acceptance Criteria

1. HR Can see full list of employee leave data

2. HR Can Filter employee by month or Employee Name

4. Employee (US)

As an employee, I want to check my leave status so I know if it's approved or rejected

Acceptance Criteria:

Status visible as Pending/ Approved/ Rejected
